Value is

Geometry.

Your products are of the highest value. Thanks to innovation and ideas for new pralines or chocolate figures you manage to create a cutting edge on your markets – using a little help from us because we are turning your concepts into reality. We are your partners for making your visions become a product. Our CAD-supported Design and Development Team creates

the right solution for your product concepts. After you confirm the design to be according to your ideas, we then create a chocolate mould custom-made for your production line.

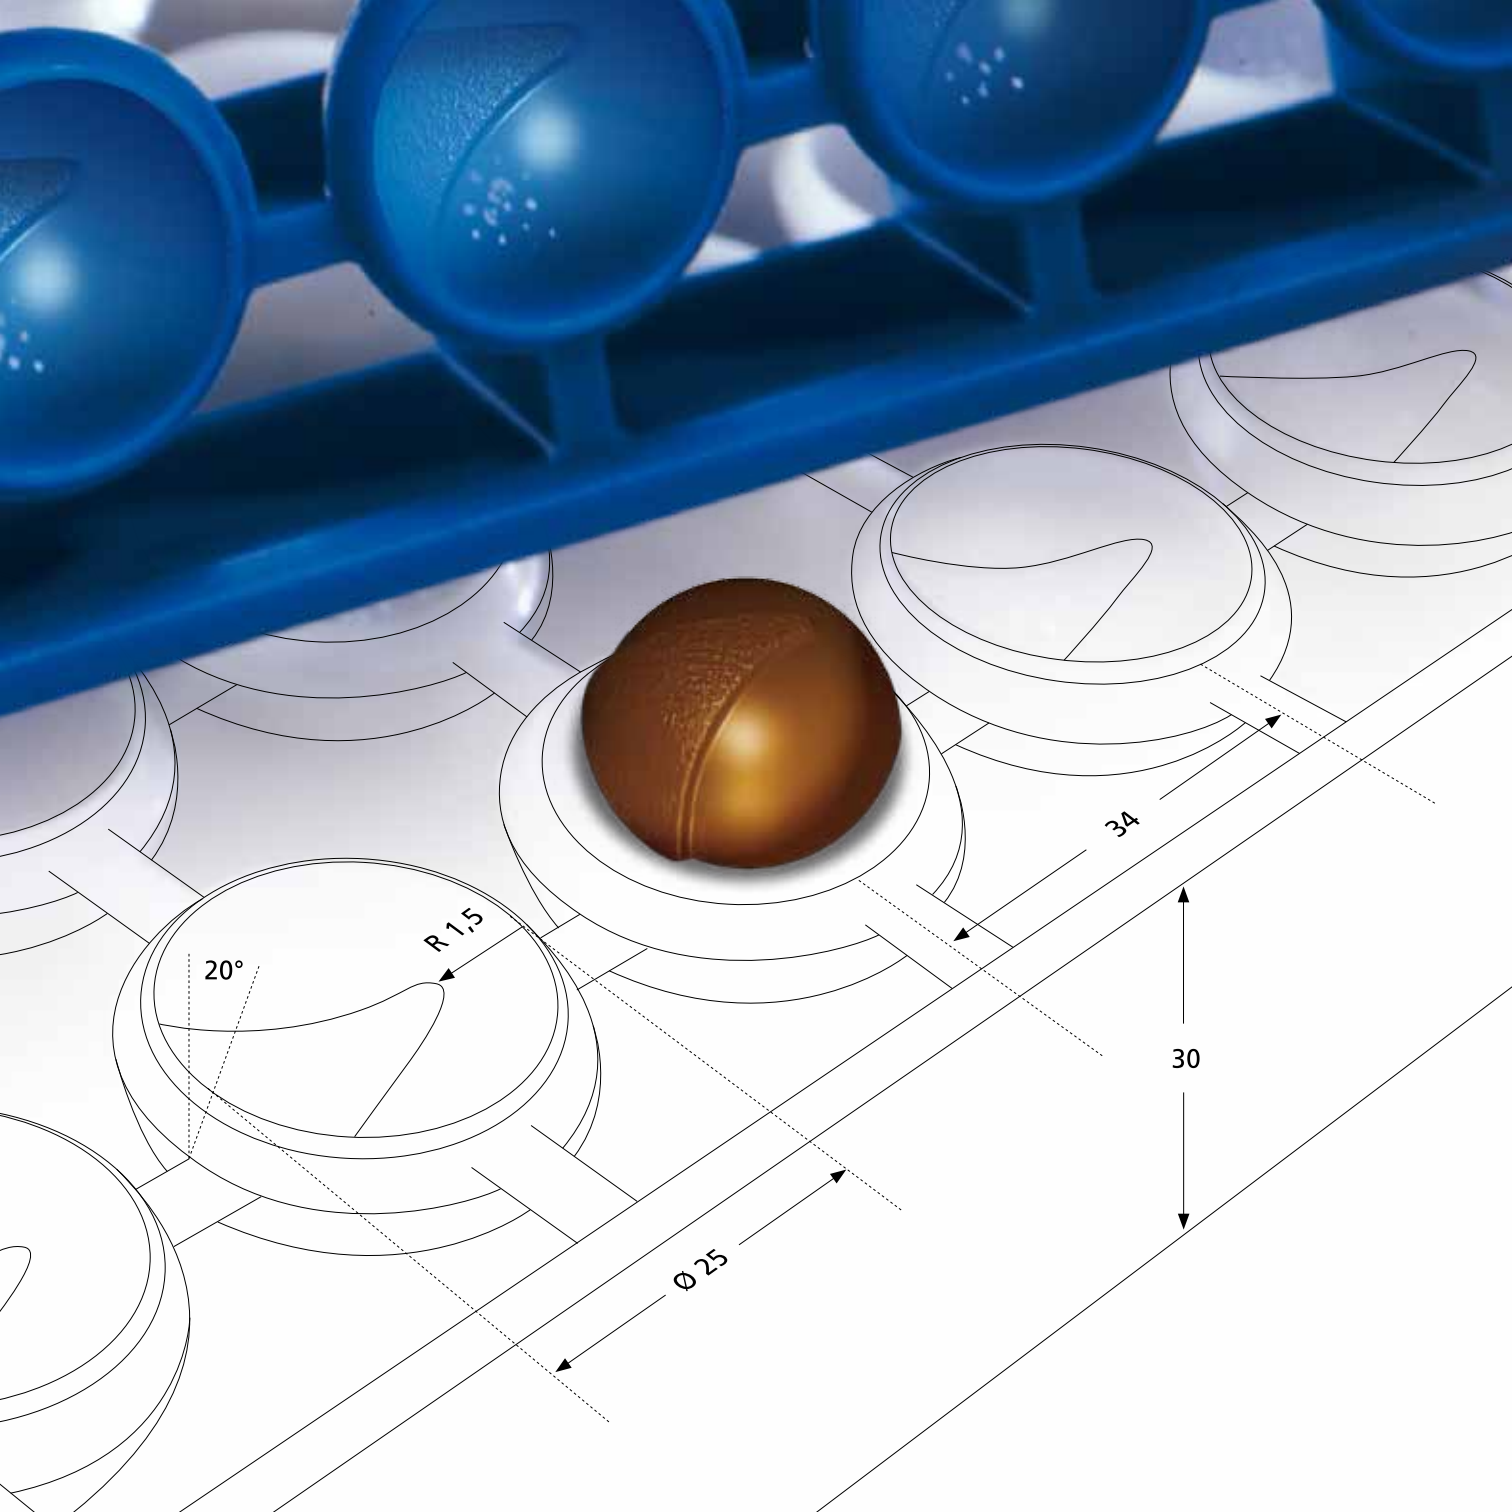

**Kaupert moulds your ideas
into shape!**

Value is

Process Safety.

Once your chocolate mould is tailor-made for your product and your manufacturing line, your serial production is on the right track to process reliability. In our own Tool and Die Department the suitable tooling for your chocolate mould is being manufactured. Following is the production of the polycarbonate moulds on state-of-the-art injection-moulding and thermoforming machines. It is thanks to our modern machinery and our substantial experience that we can offer you chocolate moulds of highest precision – for all solid, centre-filled, one-shot or cold stamping lines as well as for hollow figurine spinners.

Value is

Market Suitability.

Not only is your chocolate product important, your packaging is, too. In this respect Kaupert Solutions will support you with custom-made blister and tray packaging. Our thermoforming production machines are capable of processing nearly any thermoformable plastic film into deep-drawn packaging. No matter if we are talking small batches, medium runs or large volumes: all

blisters and trays will be manufactured to your specifications. Our Kaupert de-nesting units for automated de-nesting of blisters and trays are contributing to the trouble-free and efficient processes in your chocolate or cookies and pastries production.

We will make sure that your products are well received!

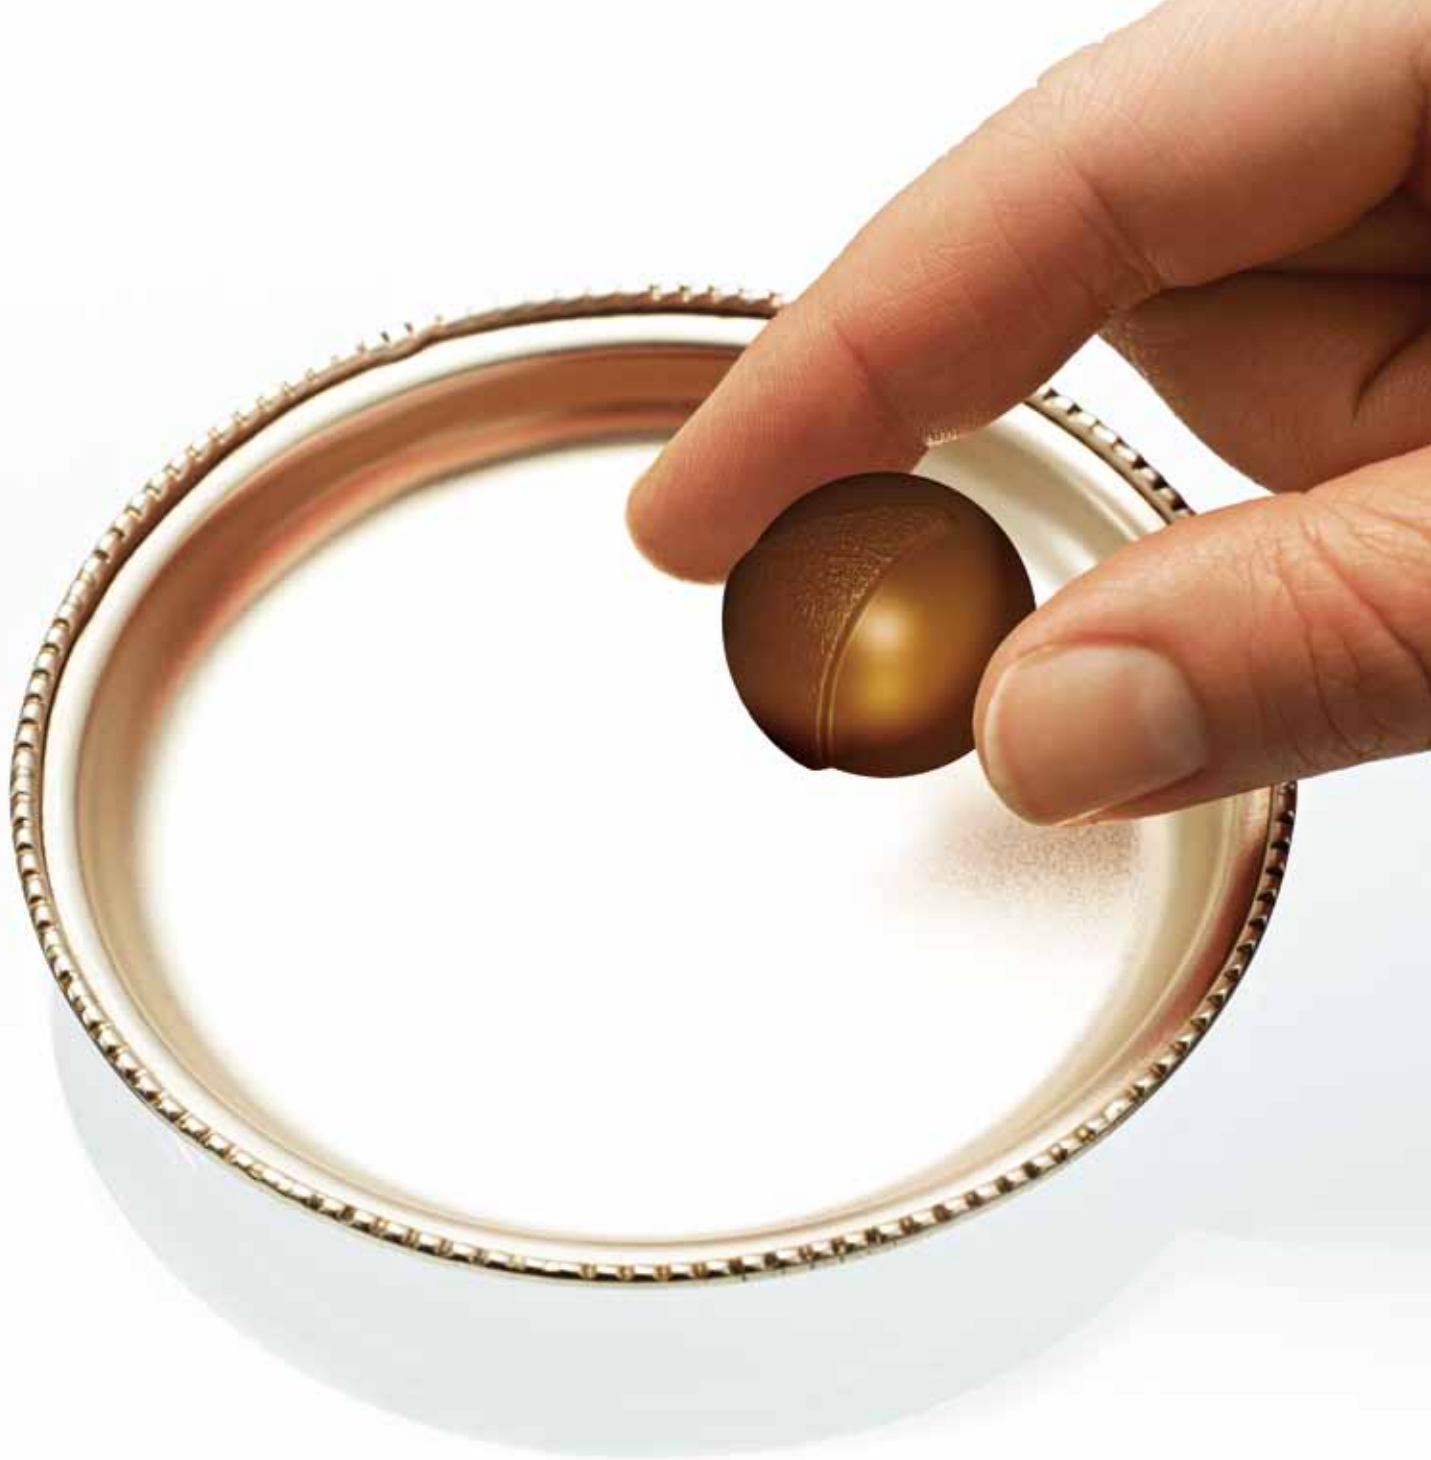

Value is

Partnership.

Exquisite ingredients, individual recipes and innovative shapes turn your chocolate product into bliss – for the palate and for the eye. As your partner, we will support you in your efforts to produce your delicacies economically, bring them into shape efficiently and to package and present the attractive results. Kaupert Solutions is the one-stop supplier for

all these services: from design creation to the production of chocolate moulds, blisters and tray packaging, all the way to the de-nesting units. This is how we are offering a harmonious concept for your individual tasks.

Kaupert Solutions – Added Value for your First-Class Products!
